The above figures show a rapid increase from last week, the total then being 483, or 46 less than the above. The increase is not confined to any particular diseases—six on Diarrhea being the greatest proportion. Small-pox has gone up from 39 to 42-Measles from 14 to 21-Hooping Cough from 5 to 11. The mortality among children increased remarkably, there having been 48 more under 10 years than in the previous week.

The weather yesterday was clear and stinging cold.

ONE CEST .- It is a small coin-not much of a gift for you. or you, and yet we have seen it given when we thought the gift more liberal than others which were counted by hundreds of thousands of the same coin. We saw one of this kind last Sunday. It came from a "news boy," and a very small specimen at that. We stood shivering in a damp cold, chilly atmosphere, watching for one of the mercuries who make the streets echo every Sanday morning with

their incessant cries of "Sunday papers—Coo rer—Marky—"Tirmes—Polish Gwazet and Irish Merrykan." To this list has lately been added "the Ciry zan," but as soon as the little fellows found out that The Citizen advocated selling boys as well as papers, they dropt it as quick as an Irishman would his hod to whip a man who dured to advocate selling his children, instead of black ones.

We had not waited long before a poor little fellow, but little bigger than a bundle which we could wrap up in a number of The TRIBUNE, came creeping around the corner with a most disconsolate look, for it had been an unlucky day with him, and he felt poor as well as cold and wet, and gave tone to the stereotyped cry of his merchandise in a voice tuned to the dolorous pitch. He did not look up to catch our eye, or he would have come up the street at a "quarter nag" speed, to obtain the three cents waiting for in our right hand. His attention was soon taken up with another object; a poor pale faced, sickly looking woman was sitting upon a door step with her head in her band, a picture of sadness. She did not beg, but she looked willing to receive. The boy stopped, turned and looked at her a moment, thrust his dirty hand into the pocket of his ragged coat—perhaps his father's coat, as it was a world too big—then looked at his papers still unsold, mentally ejaculated "stuck," and started to cross the street to try his luck on the other side, and made an attempt to raise the usual cry, but it was " no go." Suddenly he turned back, hastily withdrew his hand from the wide mouthed pocket, and dropped a penny in the poor woman's lap, raised his head with a proud satisfaction of having

as at first intended, and went away unconscious that it was a reward for a good action. Miss Lucy Stone will speak to night at the Broadway Tabemacle, in the Anti-Slavery Course of Lectures.

Mr HESEY A HOMES proposes to deliver a lecture on Friday evening next at the Tabernacis, upon Tarkey, and especially on the reforms intr-duced there within the reign of Mahmond and Abd ul Medjid. A long residence at Constantinople as an attaché to the Americas legation, qualifies Mr. Homes to cast a uniful light upon the questions that now so deeply interest the world in connection with Turkey.

There was little of importance done in the Board of Aldermen last evening, excepting the adoption of a resolution calling upon the Hude n River Railroad Company to show cause why the r grant in the City should not be taken from them for not complying with the ordinance to take up their rails in Hudson and other streets, and put down other

Grant Thorburn's removal from the Custom House is a matter of no consequence, perhaps; but since Mr Hant states that he ordered the old man out for breach of rules, we may as well add that Mr. T was quite ignorant of the order which he violated, and thought he had as good a right to use a candle for a moment as Mr. Hunt had to a dozen or two burning at once in his room in the same build ing. Grant thinks his offense was not so much the candlelight as the publication a few weeks ago of a bit of pretty strong Native Americanism. However, it is of no coase quence; Grant has seen too much of the ups and downs of life to take the affair to heart, and is quite willing to make way at eighty years of age for some lusty young office beggar who is lazy enough to take his place.

THE TELEGRAPHIC WIRE ACROSS THE HUDSON RIVER -On Saturday afternoon the new telegraphic cable, made by Mesers Newell & Co, at Gateshead-upon-Tyne, England, was extended across the Hudson River from Fort Washington to Fort Lee, by order of Mr. Rogers, Superintendent of House's New York and Washington te'egraph line. The cable contained a single conductor of No. 16 copper wire, covered with two coats of gutta percha, and wrapped with rope yaar, forming a core, over which are spirally laid eight No 10 galvanized iron wires, as a metallic covering. to protect the inclosed copper conductor. It weighs 3,525 pounds, is three fourths of an inch thick, and one mile in length. It was unrolled from a capstan on board the steamboat Delaware, and the time occupied in getting everything ready, and in putting the cable in its proper place was one hour and twenty minutes.

The proprieters of Tammany Hall have instituted an action in the Superior Court against the members of the Democratic General Committee of the year 1852, to recover the sum of \$1,617, alleged to be due for rent, broken glass, broken furniture, refreshments, &c.

JEWS' HOSPITAL IN NEW-YORK .- A dinner and ball will be given at Niblo's on Thursday evening, the 26th inst., in aid of the funds of the Jews' Hospital in New York. The corner stone has been laid, and the Directors are exmestly desirens that the building now in progress may be completed, fitted up, and ready for the reception of the suffering Jews with as little delay as possible.

THE FIREMEN'S BALL. This annual fete came off last night at Niblo's, in a style unsurpassed by any former assembly. There was a very large and well-pleased company.

MAN TRAFF.-We are not going into the enumeration or the history of these articles. Enough to say they are of all sorts, not always made of steel, and not always set upon forbidden ground.

New York has its share of man traps, both in number and variety, and he who does not take heed to his ways, will be apt to find one or another of them. A man found one last night in Fulton st, when he tumbled through a hole in the sidewalk. Had he seen it by day light, it would have been avoided, for it resembles a deserted stone quary more than a throughd thoroughfare.

There is a man-trap in Nassaust, disguised as a lumber

yard after a burricane. Many is the man, that has gotten knocks on thing but " Apostolic " in that locality.

A number of beautiful pits have been digged in sundry claces beneath where the sidewalks ought to be, on Broad ray and elsewhere, but they are bridged-oh! of courseat now and then, with ingenious little places to let a man hrough in a twinkling. Like the little joker, "now you see him, and now you don't see him. We had the pleasof seeing a man "disappear" thus the other lad it occurred on the thearried boards it would have rought down the house. As it was, nobody was brought wn but the performer. We looked to see if he had actual gone through to the Calestial Empire, and there he lay, and and comfortable in the nicest bed of mud and water on can imagine; and what is more, he wasn't hurt a bit.

Sometimes we see a plank invitingly extended over a cellar, a couple of stories deep; occasionally a man is in duced "to walk the plank"—down goes the plank and down goes the man; and altogether, it forms a nice little device, and a pleasant surprise, and breaks agreeably the monoteny of street life, provided always, it doesn't break

When a chasm aforetime, vawned in Rome it kindly consented "to shut up," if somebody could be found, loving "Rome more" than himself, to ride into it. The man was found, and the chasm was satisfied. But New York gulfs are not satisfied with a single sacrifice; they are clamorous for more. Oh! for a Roman chasm, and if w can't have that, then let us have a CURTIUS.

PRESENTATION - Last night a number of persons doing business in the Fifth Ward, assembled at the Salon of Mr. Harrison corner of Franklin and West sts. for the purpose of presenting a gold watch to Mr. Taylor. Ex-Alderman Cande was called to the chair Order being restored, the chairman stated that over a year ago, Mr. Hopkins, the proprietor of a store in that Ward, frequently missed as ticles from his store, which fact he mentioned to his clerk, Mr. Teylor. The clerk, fearing he might be suspected of purloining the articles missed from time to time, arranged a plan for the detection of the thieves in which he suc ceeded. Two persons he said who instead of protecting the property of the citizens in the Ward were detected in a burglarious operation. These men were Policemen; they were arrested, tried and convicted of the crime, but were after ward pardoned by the Governor. The speaker then proceeded to give his opinion relative to the Governor's action in the matter, &c., and concluded by presenting Mr. Taylor with a splendid gold watch as a testimonial of regard from some of the merchants of the Fifth Ward, for his action in the matter. Mr. Taylor responded in appropriate terms.

FIRE IN NASSAU STREET -Last night about 12 o'clock a fire broke out from some unknown cause in the basement of No. 18 Nassau st., occupied by Thomas Saunders, boot and shee maker. The flames were speadily subdoed by the firemen. Damage about \$100. The first floor, occupied by Chilton & Co., auctioneers, was slightly damaged. The building was damaged to the amount of about \$50. Had this fire occurred at a later period in the night, it would in all probability have proved very destructive in its conse-

PROCEEDINGS AGAINST THE ALDERNES-Costs in Court of Appeals .- This matter having been brought before Judge osworth, he rendered a decision this forenoon, modifying, in some measure the charge, but still leaving the costs nearly 8100 in each case which, of course, with their counsel fee, will be added to the amount of time, &c., jul-

ready imposed.

The following is the decision of Judge Bosworth:

The People in relation to Davis & Palmer, art. Oscar W. Sturtevant. The Court of Appenia, on an appeal from the final determination of this Court at general term selingling that the defendant had wilfully violated an injunction, and imposing a fine, affirmed the judgment, on order appealed from, with costs of the appeal.

The main questions now presented are, shall such costs be taxed by \$307 of the code or by the rate presented by 2 R. S. pp. 619, sec. 42, 622 ch. \$3, 4, 5.

Bosworth, J.—The defendant insists that the code only prescribes the rate of costs on superal from a indemnent in a

Boworth, J.—The defendant insists that the code only prescribes the rate of costs on appeal from a judgment in a "civil costs actions"—Code \$303, that a "civil scano" to which the fee bill of the code applies, can only be commenced by "summons"—that the proceedings on which the first determination appealed from was maio, was not, and could not, be so commenced: that it was a special proceeding and not an action, and that \$471 expressly declares that this particular proceeding shall not be affected by the code, and therefore the costs on the appeal can only be such as the revised statutes relative to proceedings have provided.

special preceeding, according to the designation of these terms as found in the code, I do not consider decisive of the question. As the law stood prior to the code, the cost is such a case in the Court in which the attachment is used, were regulated by Sec. 41, 2 R. S., 619, If in the Suprema Court or in this Court, and by 2 R. S., 529, 513, if in the Court of Chancery.

the question. As the law stood prior to the code, the costs is such a case in the Court in which the attachment is used, were regulated by Sec. 42, 2 R. S., 619, if in the Suprema Court or in this Court, and by 2 R. S., 529, 619, if in the Court for the Correction of Errors, whether the services were in proceedings originating at law or in equity, or upon appeals from judgments or decrees, or from final determinations in special proceedings, the fees of coursel were the same for the same kind of services in all cases; the same is true of solicitors and attornies, with the qualification that their compensation for certain similar services was different.—Sec. 4, 5, 6, 2 R. S., 521, 624.

Section 11 of the Code, sub. 3, provides for an appeal to the Court of Appeals for "a final order" affecting a substantial right made in a "special proceeding." Section 318 provides that when the decision of an inferior Court shall be brought before the Supreme Court for review, such proceedings, for all purposes of cests, shall be deemed an action at issue on a cuestion of law, from the time the same shall be brought into the Supreme Court.

Here it will be seen that the Code not only provides for appeals to the Court of Appeals form final determinations of the Supreme Court and other Courts, on special proceedings, but provides for the costs on them when first brought into the Supreme Court, on special proceedings, but provides for the costs on them when first brough into the Supreme Court for review.

Sub. 7 of \$ 307 of the Code provides that, when allowed, costs shall be as follows: before argument, \$25, for argument \$20. This section embraces all cases of appeal to the Court of Appeals, giving the same compensation whether the appeal is from a final order on a special proceeding, or a judgment in an action; this being so, it seems to me unimportant whether the final determination of this Court, from which the defendant appealed, is properly denominated a "final order" or "a judgment" and the action of the appeal, was reached

An order will be entered conforming to the views here

COMPRESCY TO DEFRACE -Three men, named S. Strauss. of No 148 Canai-st. Julius Kalter, of No 3174 Bowery, and Philip Nussbanm, of the corner of Sixth and First sts. were yesterday arrested by Officers Webb and Mansfield on a warrant issued by Justice Osborne, in which they stand charged with conspiracy to defraud Ernest Richler, of No. 151 Broadway, out of brocatelles and plushes to the value of \$853 70, which they effected under the following circumstances Strauss in September last, called at the store of Mr. Richter and represented that he had a friend who wanted to buy plushes, &c., and recommended him as being responsible. He then left, and soon after Julius Kalter called in and stated that he had been re-ommended by Mr. Strauss to examine plushes, &c. Some were shown him, and he proposed purchasing on credit, and gave his references. These proved unsatisfactory and Mr R re-fused to credit him Subsequently Mr Kalter stated that he would purchase a bill of goods, give his note in part for them, and that note should be cashed by Nussbaum at a discount of 14 per cent., as Mr. Nussbaum was his financier. Mr R then called on Mr. N, who expressed a willingnus to cash the note. U on these representations Mr Richler sold and delivered to Kalter goods to the above amount, and on receiving his note for them took it to Mr. Nass baum for the cash, offering to take off a discount of 14 per cent. Mr. N put him off from day to day, and finally told him that he would not cash the note, as Mr. Kalter had negjected to deposit certain moneys in his hands, as he had premised to do. It is now alleged that the goods were taken to Stranes's store and there divided between the three, and the teams of them have since been sold to Pa on & Co Park place, for less than first cost. The accused were required to find ball in \$1,000 cach to answer the

DARING ASSAULT AND ROBBERT .- At 1 o'clock yesterday merning Mr. Geo. J. Brown, of No. 12 Willett st., was passing through Grand at, and when near the corner of Mulberry st. was attacked by two men, named Heary Rice and Patrick McMally, who knocked him down with a short club, loaded at one end with lead, and termed a "billy," and then fled, taking with them Brown's hat. The alarm was given and Officers Dune and Thornton, of the Fourteenth Ward pursued the villains and arrested them, with the hat in their possession. They were taken before Justice Welsh, and commeted to await examination.

DESCENT UPON ANOTHER LAGER BEER HOUSE-Ar-Ward Police, with several of the Policemen of that Disthet, on Sunday night made a descent upon the lager bear shop, No. 213 Houston st, where a large party of Germans were drinking, singing, fiddling and making themselves very disorderly. Several of the most disorderly were secured. The following is the Captain's report of the

secured. The following is the Captain's report of the affeit to Chief Matsell:

Lagranger Acain.—The notorious beer shop kept by a Futchman (already under an indictment) at No. 213 Houstonst, was found to be in full blast last night—a band of musicians playing horrible discord, and drinking, dancing, beloeding, &c., which could be heard for some distance. A descent was again made upon the concern, when upware of a hundred men and women were found there guz along beer and gaboing like so many geose. Their strange, varant, oblivious looks, when the officers entered, as they sat with their mags of beer in one band and pipes in the other, was simply ladicered. Others scarcely condescended to suspend their on until forced to. As we could not accommedate the second party for want of room, we only took those who appeared to be principals, such as musicians, barkeepers, &c., the landlard making good his essure. I am determined to break up these Sanday night ruissnoes in the shape of music and dance bouses at every heard. Other Sunday dealers will also come in for a nuisances in the shape of music and dance houses at every hazard. Other Sunday dealers will also come in for a share of attention shortly. Wall a little. Five men, giving their names as John Bestofer, John Coho, Also Peobst, Jacob Hauser and F. Hauschen, were arrested by the Police and defained over night in the Police Station. They were subsequently sent before Justice Weish to await a further hearing.

GARBAGE IN THE STREETS.

GARBAGE IN THE STRIFTS

To the Ediller of The N. Y. Fritons.

Sin: The Chief of Police unjustly imputes the fault to women (serving girls) whom his near are "too all hearted to are st," that the streets are betteren with garbage. The truth is the Saper-intendant of Suresta, or whatever effices has supervision of the matter, is the sort-hearted "to infere contracts made with contractors to collect garbegs. They fall to collect it when deposited by women in harries and to zee, multi they overflow for abundance, and the garbage fine's ledgment in the autters and streets. A glance at Stath st. in the vision's of Areance C and P, would readily convince the most incredules of the truth of this statement. At this very hour they are overflowing with the scommission of a week or more; and although I have personally called the the Superintendent of Streets ettention to this areas neglect at our different times, set he has falled to remedy the evil in the least. Query—Why are contractors pair who fall to fulfull their dairy unless it is that there is some division of profits?

The child was left clone in a room where a brick fire was burning, when it approached foo near the grate, and its clothes took fire, and when its nurse returned, she found them nearly burned off the child. It died of its injuries soon afterward. The Jury rendered a verdict of accidental death.

FOUND INJURED .- A man named Patrick Fitzgerald, FOUND INJURED.—A man named Patrick Fitzgerald, was found at four o'clock yesterday morning lying in Forty-seventh et. near Eleventh av. with his face dreadfully cut. He was taken to the Police Station of the Twenty-second Ward, but could neither tell where he had been or in what memer he received the injuries. His wounds were dressed and he was then taken to his residence, near where he was found.

CHARGE OF BURGLARY-At 2 o'clock yesterday morn-CHARGE OF BURGLARY—At 2 o'clock yesterlay morning, a man named James Taylor, with a false key entered the frent door of the dwelling No. 301 Mulberry st., and was in the act of lighting a match preparatory to commercing operations, when he was discovered by the lady of the house, who gave the alarm, and he was pursued and arrested by Officer Walsh of the Fifteenth Ward, who found the false key and matches in his possession. He was taken before Justice Stuart and locked up for examination.

ARERST FOR BURGLARY.—A young man named Michael Byrre was yesterday arrested by Policeman Gaughan, of the Sixth Ward, charged with having on the night of the 16th inst, broken into the hotel and dwelling of Patrick Goerick, No. 41 Duane st., and stolen therefrom \$45 in silver, and an overcoat valued at \$10. It is alleged that the accused secreted himself in the premises until they were closed for the night, and then broke open an inner door and committed the theft. On his arrest the overcoat was found on his person. He was taken before Justice Osborne and committed to prison for trial.

ATTEMPTED BURGLARY.-John Ryder was arrested yesterday morning while attempting to break into the junk shop of Jeremish Lane, corner of Jefferson and Water sts. He was taken before Justice Wood and held to await ex-

AMERICAN PRIMITIVE SOCIETY.—The Annual Missionary Service of this Society, took place in their church in Bridge et, on Sunday, in behalf of their Mission in Pennsyl-vania. Mrs. Mary Jackson, the late delegate from England to the World's Convention in New York, delivered a beautiful discourse from John 1st chapter and latter clause of 46th verse. At the close of the sermon, the Rev. J. Fawcett, the Paster of the Congregation, stated that there were in connection with this church, three other churches in Pennsylvania-at Tamaqua, Pottsville and St. Clairand that they had also a Missionary stationed at Danville in that State, and the number of members on that station being small, it became necessary for the other churches to assist them to support the Missionary, which is done by collections in each of the other churches once a year. Services were also had in the afternoon and evening, and collections taken up in behalf of the enterprise.

DEATH OF AN IRISH EXILE -Patrick O'Donohoe, who was transported to Van Dieman's Land, by the British Government in 1848, for participating in the attempted rebel-lien, died Saturday at his lodgings, No 42 Hamilton av. The transactions at the Stock Board were to a moderate extent this morning, and prices were generally heavy, without any important changes. At the Second Board and after the Second Board, when the foreign news was made public, Erie and some other of the fancies were pressed on the market and lower prices were accepted. Erie closed at 76, a decline of # P cent in the stock offered at that price Nicarangua was offered at 26, Reading 714, Cumberland 334, &c., showing a declining market. The premium Stocks were without much change. New York Central sold at 1091 ex-dividend, and Michigan Central 994, a slight advance in both cases: Michigan 1st Construction, 1011. Railroad Bonds are without activity, but steady. The business in State Stocks at the Board is light.

In Mining Stocks there is a fair business doing and the market generally is firm. Exchange is dull and plenty. Sterling ranges from 8 to 9 for good and best signatures, although some bankers ask

Equal to 5 P cent. dividend and \$121,200 surplus The work on the Illinois and Wisconsin Railroad, since

the reorganization of the Company last summer, has been prosecuted with vigor by the contractors, Messra Bradley, Strong, Page & Co. Thirty miles of the line, from Chicago north westerly, have been finished, and the cars are now running upon it daily. Sixty miles more, which will carry it to Janesville, in Wisconsin, is in a forward state, and will he brought into use by the first of July next, thus establish ing a connection by railroad between Chicago and Mil-waukee by means of the Milwaukee and Mississippi Railroad. William B. Ogden, Esq , of Chicago, is the Presi dent of the Company under the new organization, and Henry Smith, Esq., of Chicago, Vice-President. This road constitutes the great North western line from Chicago, and at Janesville connects with the Southern Wisconsin to Dubuque. The main line is to be extended from Janesville north westerly to Madison, the Capital of the State. A

glance at the map will show its importance.

The receipts of the New-Albany and Salem Railroad for December are \$37,177 33, being an increase of \$10,000 over November. Twenty-five miles more of the Road will be opened for travel this week, extending to Gosport. 113 miles from New-Albany and Green Costle, 150 miles from Michigan City, leaving only 25 miles to complete the con-nection, all of which is graded but three miles, and the iron on the spot. The receipts from passengers on the not end for December, average \$300 P day.

The exports of the week from this port are \$1,914,550 against \$621,300 same week last year. The aggregate since the 1st January, is over four and a half millions, against less than two will be a the second of the less than two millions last year. This is exclusive of specie.

The increase of exports thus far is greater than the increase

The inquiry for money for railroad purposes sustains the rates for paper, but on call money is quite easy at 7 per cent. First class paper goes at 9@10 per cent with con-aiderable freedom. The railroad interest is also absorbing a large amount of the means of the Benks at the West and
